ABOUT ME

I hold a degree in Video Game Development and began my IT career at Grupo Visabeira in 2017. After completing a professional retraining program at Viseu Tech Coopete, I interned at Critical Software in 2019. For nearly three years, I served as a Business Intelligence Developer at Huf Portuguesa. Currently, I am working as an Intelligent Automation Developer at H.B. Fuller. I am also pursuing a master's degree in Computer Engineering at ISEP, which I expect to complete in 2025. I am always eager to embrace new challenges and opportunities that push me beyond my comfort zone, fostering both personal and professional growth.
